

Tuesday 5th December 2023

Dear Parents / Carers,

Xpressions

When we return to school in January 2024, we will be using an app called Xpressions as our main form of communication instead of text messages. This will require you to download the Xpressions app on your smartphone. Instructions on how to do this are attached to this letter.

When you set up the app, you will be asked for an email address. This will need to match the email address you have provided to school so that you can receive messages. We will be sending messages via email as well as through the app.

Please ensure you have provided school with an email address and downloaded Xpressions before we return to school on Monday 8th January 2024. We will continue with sending text messages until then.

If you have any problems, please contact the school office.

Thank you
