Monday 31st May – Friday 4th June

Half-term

Monday 7th June

INSET Day

Curriculum Snapshot

Welcome back to all of our families after the Easter break – we hope that everyone had a well-rested and fun-filled time together.

Since returning back to the academy, children have been immersed in learning. Year 4 have thoroughly enjoyed their PE lessons: taking part in orienteering activities – using great collaboration and map reading skills to find objects around the school site.

In Year 5, children have been exploring and researching the work of Leonardo Di Vinci – writing a biography all about his life whilst recreating some of his famous work in art.

Mr Mo Afterschool Club

Football club back in full flow with children showcasing ball control and touch skills.

School Parking

To ensure our children are kept safe at all times and to keep our local residents happy, please can we ask for parents to be courteous of where they park when dropping off/picking up from school – ensuring that resident driveways are kept clear for access to their properties. Please do not use the staff car park as this encourages children to walk through this area where members of staff could be leaving site and/or delivery vehicles may be passing through.

Easter Egg Competition

A big thank you to all of our families who took part in the Easter Egg Competition Raffle held by Outwood Assist. It was great to see the involvement and the excitement it created around school. The lucky winner was Olivia who will not be short of chocolate for the rest of the year. Congratulations, Olivia

Outwood Pharmacy

Outwood Pharmacy, Leeds Road, have recently found they have a surplus amount of Lateral Flow Devices (LFD tests) and have kindly offered these out to families in the local community. If you wish to collect a set of LFD test, please contact the pharmacy ahead of collection.

Rainbows and Sunshines have been fully engrossed in their learning so far this half term with children becoming palaeontologists – discovering fossils and discussing everything related to dinosaurs. Both classes have enjoyed writing about dinosaurs and making models of them.

The next time we see a dinosaur, we know who to go to!
